

Useless Audits

My name is Anthony J. Windisch. I am a Certified Computing Professional (CCP) and a federal Whistleblower.

I started work for the federal government in 1982, and I discovered WIDESPREAD COMPUTER AND FINANCIAL MISMANAGEMENT. For thirty (30) years I went around in circles as the General Accountability Office (GAO), the audit arm of Congress, issued numerous reports, which verified my Complaints, and were critical about the operation of most federal agencies.

My Complaint about "COMPUTER MISMANAGEMENT" was verified by report GAO/IMTEC-92-9, "ADP MODERNIZATION - Half-Billion Dollar FmHA Effort Lacks Adequate Planning and Oversight..." Which continues to be ignored by Congress.

My Complaint about "COMPUTER SECURITY CRISIS" was verified by GAO/T-AIMD-00-181. "...almost every federal agency has poor computer security...Hostile nations or terrorists could use cyber-based tools and techniques to disrupt military operations, communication networks, and other information systems or networks..." Which continues to be ignored.

Financial Mismanagement is verified in report GAO/OCG-93-4TR. "...Widespread financial management weaknesses are crippling the ability of our leaders to effectively run the federal government..." Which continues to be ignored by Congress.

Report GAO/GGD-94-21 recommends, "WHISITLEBLOWER Protection - Reasons For Whistleblower Complainants' Dissatisfaction Need To Be Explored..." Which continues to be ignored by Congress.

In 2012, a GAO attorney wrote, "...However, GAO does not have legal authority to sue to enforce its recommendations..."

From the St. Louis Post-Dispatch, "The House on November 19 (2015) voted 241-185, to authorize the Government Accountability Office (the investigative arm of Congress) to audit the Federal Reserve System."

The proposed new audit of the Federal Reserve System (FRS) will **AGAIN** show that the FRS no longer serves as our nation's bank. And that the FRS has 'NO MEANS' to fulfill its responsibility to balance agency "FINANCIAL STATEMENTS".
