

We the People
By Anthony J, Windisch, CCP

We the people of the United States-
Have lost control of our lives and are led as a predatory plutocracy.

We the people-
Do not select elected Congressional Representatives
And Missouri Representatives are not required to live in the district they represent.

We the people-
Have Congressional “watch dog”--- the General Accountability Office (GAO)---
Which has “no teeth” to solve problems.

We the people-
Heard from GAO in 1992 that “Widespread financial management weaknesses are crippling
the ability of our leaders to effectively run the federal government.

We the people-
Continue to learn how “Government Computers Add to Waste” and
In 2000, GAO reported that “... as a noted in previous testimonies and reports,
almost every federal agency has poor computer security...”

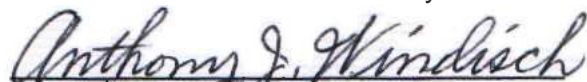

We the people-
are not protected from abuse, fraud, and harm by
the people of commerce, finance, and the industry.

We the people-
as whistleblowers are not allowed to help eliminate
fraud and waste in business nor government.

We the people-
Are betrayed by the US Treasury Department with its
Financial Management Service (FMS),
Which is contrary to the 1990 Chief Financial Officers (CFO) Act.

We the people-
do not receive financial reports to show how our taxes are collected and spent.

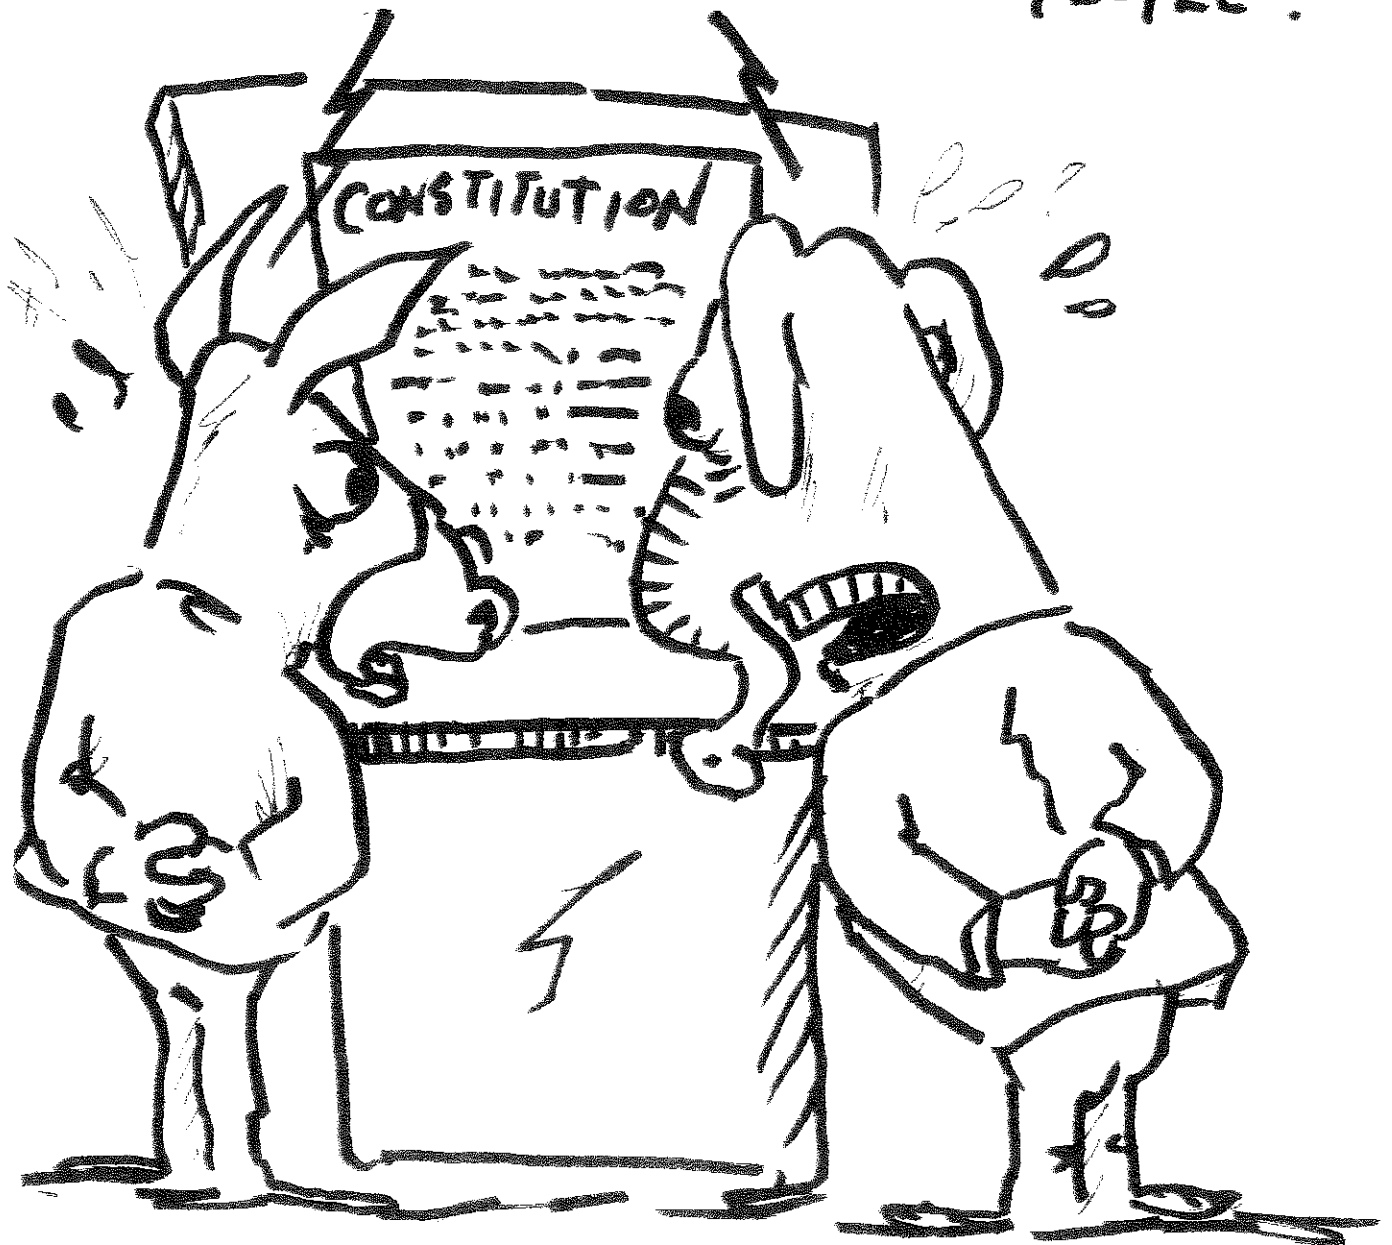

We the people-
are doomed, because our government is in total chaos and has created a Predatory
Plutocracy.
